Exploring Your Set-Top Box

When your set-top box is properly connected, you can view content in digital format that is displayed on the television screen or other display device.

This chapter describes these basic actions:

- Checking Available Services on page 1-1
- Viewing the Infobar on page 1-2
- Using your Remote on page 1-2

Checking Available Services

Press the Menu button to display the menu bar. The Menu bar provides quick access to services available to you. Use the left and right arrow keys on your remote to highlight an application of interest, then press OK to select it.

Viewing the Infobar

In many screens, when viewing a program or movie, or after selecting its name, you can press **Info** to view more information about the item. You can press info a second time to view a more detailed program description (if available):

When viewing the **Info** screen, you can press ▲ and ▼ to change to adjacent channels. The information in the Infobar is updated for the displayed channel.

Using your Remote

Your remote has different functions depending on the application (**Guide**, **DVR**, etc) that you’re using on your set-top box. Below are some general remote operations that aren’t specific to particular applications.

Navigating

In this document, the action “press” refers to pressing a key on your remote, for example, “press **Menu**”. The action “select” means to use the ▲, ▼, ◀, and ► keys on your remote so that the specified area is highlighted, at which point you’ll normally **press OK** to complete the task.

Using the Keypad

The keypad is displayed when you are required to enter non-numeric characters, such as when you use the **Search** function. To enter a character, you use the ▲, ▼, ◀, and ► keys to select the character, then **press OK** to add the character to your input text. You repeat this process until the complete text has been input, then you select **Done**, then press **OK** to complete the entry.

This image describes the functions of some of the non-character keys on the keypad:

Entering Standby Mode

Your set-top box goes into Standby Mode when you press the **Power** key after you’ve completed a viewing session. In this mode, a “screen saver” image appears on your TV. Press **Power** to exit the standby mode and start a viewing session.
This chapter describes how to use the **Guide** application. You use the **Guide** to tune to live (currently broadcasting) programs and schedule recordings, reminders, and autotunes.

You access the **Guide** by selecting 📅 from the set-top box Menu bar and then pressing OK.

**Guide Components**

The image below shows the main components of the **Guide** interface:

*Current Program Thumbnail View*

*Program Description*

*Guide Filter*

*Channel Lists Included in the Guide*

*Status icon(s)*

(see table below)

The table below describes the meaning of the status icons that can appear before the name of a program in the **Guide**:

Navigating the Guide

While the **Guide** is displayed, you can use your remote to find channels in the following ways:

- Enter the channel number directly using your remote.
- Press ▶ and ◀ to scroll through the **Guide** forward and backward in time.
- Press ▲ and ▼ to scroll to different channels.

Tuning to a Channel

To tune to a channel while the **Guide** is displayed, select the channel, press **OK** to preview the program on the upper-left corner of your TV screen. Press **OK** again to tune to the channel.

Changing the Guide Filter

While the **Guide** is displayed, you can press the **Guide** again to cycle through available **Guide** filters. Examples of the filters include:

- **All** displays all channels.
- **Subscribed** displays only subscribed channels.
- **SD** displays only standard definition channels.
- **HD** displays only high definition channels.
- **Favorites** displays a list of favorite items that you optionally create using the Favorites application. You can create more than one favorites lists. (For more information, see **Using Favorites** on page 6-1.)

Making Recordings

The sections below describe the ways that you can record programs listed in the **Guide**:

- **Recording a Live Program** on page 2-2
- **Scheduling a Recording** on page 2-3
- **Scheduling a Series Recording** on page 2-3
- **Scheduling a Time-Based Recording** on page 2-4

**Note:** Your service provider might disable the recording feature for some programs or channels. If a program isn’t recordable, a message indicates this if you attempt to record it.

Recording a Live Program

To record a live (presently broadcasting) program, do this:

1. Open the **Guide** application.
2. Select the program you want to record, then press **REC** (record).

● appears next to the program as shown below, and the program is being recorded:
Scheduling a Recording

To schedule the recording of a single program or episode that starts in the future, do this:

1. Open the **Guide** application.
2. Select the program you want to record, then press **OK**. A list of options appears:

   ![Schedule Event](image1)

3. Select **Record Program**, then press **OK**. The options close, and the record icon appears next to the program.

Scheduling a Series Recording

You can schedule the recording of program episodes that your set-top box recognizes as being part of a series. To do this:

1. Open the **Guide** application.
2. Select the program you want to record, then press **OK**.
3. Select **Record Series**, then press **OK**.

   ![Record Series Options](image2)

   **Note:** The **Record Series** option only appears if the program is part of a series.

The panel shown below appears. The interface includes settings for **Channels**, **Preferences**, **Episodes**, **Start**, **End**, and **Limit to** values:

![Record Series Settings](image3)

4. Select the default value of each setting you want to change, then press **OK**. Press ▲ and ▼ to scroll between value options. Press **OK** to accept the value you want to use.
5. When all settings are in place, select OK, then press OK. The series recording is scheduled.

Scheduling a Time-Based Recording

You can schedule time-based recording. This type of recording is often used to record repeating programs that aren't part of a series.

To create a time-based recording, do this:

1. Open the Guide application.
2. Select the program you want to record, then press OK.
3. Select Schedule Event, then press OK. The Schedule Event screen appears:

4. Press ▲, ▼, ◀, ▶, and OK to set appropriate values for Channel (Ch.), For, On, and At.
5. If Type doesn’t already indicate Recording, select Type, then press OK. Select Recording, then press OK again.
6. Optionally set the Freq, value to configure the recording to occur at regular intervals.
7. Press OK. The time-based recording is now set.

Scheduling Reminders and Autotunes

You can schedule reminders that display messages on the screen to remind you that a program is about to start. You can also schedule autotune events which cause the set-top box to tune to a channel at a scheduled time.

To schedule reminders and autotunes, do this:

1. Open the Guide application.
2. Select the program that you want to set a reminder or autotune for, then press **OK**.
3. Select **Set Reminder** or **Set Autotune**:

![Image of set reminder or autotune options]

The event is set:

**Reminder**

**Autotune**

---

**Note:** You can set a **Reminder** or an **Autotune** for a program, not both.
Managing and Viewing Recordings

This chapter describes how to view and manage existing recordings with the DVR application.

If you are provisioned configured with digital video recording service (DVR, Whole Home DVR (WHDVR), or Network DVR (nDVR)) by your provider, you can record programs offered on the Guide and view them at a later time. When you watch recordings, you can use functions on your remote to pause and replay the program. You can also fast-forward and rewind a program while viewing it, and change the speed of each up to 25 times normal speed.

To view a recorded program, do this:

1. Open the DVR application.
2. Select Recordings.
3. Press ▶ to move to the pane showing all recorded programs. Note the change of Recordings pane:
4. Optionally select one of the sort options Date, Title, Channel, Viewed/Not, then press OK. Select the program you want to watch, then press OK:
5. Select Play Recording. The recording starts playing.
Using your Remote

When a recording is displayed on screen, you can use these functions on your remote:

<table>
<thead>
<tr>

Locking a Recording

By default, old recordings are automatically deleted to make space for new recordings.

By default, old recordings are automatically deleted to make space for new recordings.

Note: The recording lock feature is only available if you have DVR or Whole Home DVR service. It is not available if you have only the Network DVR (nDVR) service.

To prevent a recording from being automatically deleted, do this:

1. Open the DVR application.
2. Select Recordings.
3. Press ‹ to move to the listing of recorded programs.
4. Select the program you want to lock, then press OK. The Choose an Action panel appears.
5. Select Lock:
6. Press OK. The recording is now locked.

Deleting a Recording

To delete a recording, do this:

1. Open the DVR application.
2. Select Recordings.
3. Press ‹ to move to the pane showing all recorded programs.
4. Select the program you want to delete, then press OK.
5. Select Delete Recording, then press OK: The recording is deleted.

Note: If you select the folder for recordings from a series, the Delete All option appears instead.
Using My Library

This chapter describes how to use the My Library application.

My Library is a repository of all your purchased movies and programs. If you subscribe to the Caller ID service, it also maintains a list of recent calls. You can view and manage messages related to DVR recordings, system announcements, or billing alerts.

Using My Library

To use the My Library application:

1. Press Menu to display the menu bar, select , then press OK. The My Library application opens:

2. Select one of the following content/event categories that you want to view:
   - **Video** displays movies that you recently purchased.
   - **PPV Events** displays programs that you recently purchased
   - **Pay Per Block** displays the block of time that you recently purchased
   - **Sports Packages** displays sports packages that you recently purchased
   - **Reminders** displays a list of future reminder and autotune timers.
   - **Messages** displays messages related to DVR recordings, system announcements, or billing alerts.

   - **Caller ID** displays a list of information about received calls, such as the name and number of the caller, and the date and time of the call, as shown in this example:

3. Press ▶ and then ▲ and ▼ to select an item of interest, then press OK to show action options for that item. Select the desired action.
This chapter describes how to use the Settings application to set certain preferences for your account, such as rental sharing settings and channel blocking settings.

**Note:**
- You must enter your PIN every time you access the Settings application.
- The Settings application is also used to access the Set Top Box Settings - Warning! The Set Top Box may become unusable. Please use Caution on what is changed.
- Select Submit, then press OK to save your changes.

You access Settings by selecting from the set-top box Menu bar and then pressing OK.

**Setting Preferences**

To set your preferences, do this:

1. Open the Settings application.
2. Select, in turn, the various options and change their values as desired:
   - **Theme:** Specifies the skin (or color scheme) to be used by the set-top box interface. To modify, select this item, press or to display a desired skin, then press OK.
   - **Autotune Alert:** Specifies the Autotune alert value. To modify, select this item, press or to scroll to the desired number seconds you'd like to have the set-top box alert you before an Autotune occurs, then press OK.
   - **Enable Caller ID:** Enables or disables the Caller ID feature. To modify, select this checkbox, then press OK to either 1) enable Caller ID (add a check mark) or 2) disable Caller ID (remove the check mark).
   - **Caller ID Timeout:** Specifies the Caller ID timeout value. To modify, select this item, press or to scroll to the desired number of seconds you'd like to have the set-top box display Caller ID text on the set-top box, then press OK.
   - **Channel Blocking:** Turns the channel blocking feature on or off. To modify, select this checkbox, then press OK to either 1) enable Channel Blocking (add a check mark) or 2) disable Channel Blocking (remove the check mark).
Setting Preferences

- **Share Rentals**: Allows you to share your rentals with sub-accounts. To modify, select this checkbox, then press OK to either 1) *enable Rental Sharing* (add a check mark) or 2) *disable Rental Sharing* (remove the check mark).

- **Require Login**: Specifies that you are required (or not) to enter your user name and password when logging on to E-mail and the Internet. To modify, select this checkbox, then press OK to either 1) *enable Require Login* (add a check mark) or 2) *disable Require Login* (remove the check mark).

- **Parental Control**: Enables or disables the Parental Control function. To modify, select this checkbox, then press OK to either 1) *enable Parental Control* (add a check mark) or 2) *disable Parental Control* (remove the check mark).

3. Select **Submit**, then press **OK**. Your preferences are saved.

Setting up Parental Controls

If you enabled **Parental Control** control above, then parental controls that you put in place for each subaccount are enforced. These controls include:

- Specify the movie rating and TV rating that corresponds to the “most mature” rating that the movie or TV show can have in order for the subaccount to be able to view it.

- Specify whether or not the subaccount can view movies or TV that have been rated for sexual situations, language, suggestive dialog, violence, or fantasy violence.

To set **Parental Control**, do this:

1. Open the **Settings** application.
2. If **Parental Control** isn’t enabled, select its checkbox, then **OK**.
3. Select **Users**, then press **OK**.
4. Press ‹, then press ▲ and ▼ to select a user whose parental control settings you want to change, then press **OK**.
5. Press ‹ to select **Parental Controls**, then press **OK**.
6. Make the following adjustments as desired:

   - **Movie Rating**: Select **Movie Rating**, then press **OK**. Press ‹ or ▲ until the desired restriction level appears, then press **OK**.
Setting up Parental Controls

- **TV Rating:** Similarly, select **TV Rating**, then press **OK**. Press ▶️ or ◀️ until the desired restriction level appears, then press **OK**.

- **Unlock Timeout:** (This setting appears only when editing parental control settings for the Primary user.) Enter the number of minutes, after **Parental Controls** are unlocked, that the **Parental Controls** should be locked (enforced) again.

  When you are logged in as the primary user, and you attempt to select (in the **Guide** or **On Demand**) a TV program or movie that’s locked according to the **Parental Control** settings for the primary user, you are prompted with an option to unlock that item. If you choose to unlock it, you can view the item (that would otherwise be restricted) for the number of minutes you specify in the **Unlock Timeout** setting.

  To set the **Unlock Timeout** value, select **Unlock Timeout**, then press **OK**. Press ▶️ or ◀️ until the desired restriction level appears, then press **OK** again.

**Note:**

- If the primary user presses a key the remote between the time that **Parental Controls** are unlocked and the time the timeout expires, then the timeout clock is reset to 0. For example, if the **Unlock Timeout** value is 30 and **Parental Controls** is unlocked at 8:00 pm. If no buttons are pressed on the remote for 30 minutes, **Parental Controls** will be relocked at 8:30 pm. However, if one or more buttons are pressed at 8:15 pm, **Parental Controls** is set to re-lock at 8:45 pm.

- The **Unlock Timeout** value doesn’t affect the viewing experience of subaccount users. (They don’t have the option of unlocking parental controls.)

- **Block Unrated:** (This setting appears only when editing parental control settings for the primary user.) If you want to block programs and movies (Live TV and VOD) that don’t have an announced rating, or that are rated as NR (not rated), check option **Block Unrated**.

  To set the **Block Unrated** value, select its checkbox, then press **OK** to either 1) **enable** unrated blocking (add a check mark) or 2) **disable** unrated blocking (remove the check mark).

**Note:** While this setting only appears when editing parental control settings for the primary user, subaccount users are also affected. They won’t be able to view unrated movies and TV programs.

- Press ▲, ▼, ◀️, ▶️, and **OK** to select the change the check status of the checkboxes for **Sexual Situations**, **Language**, **Suggestive Dialog**, **Violence**, or **Fantasy Violence** restriction options.

7. Select **Submit**, then press **OK** to save your changes.
Selecting Channels to be Blocked
You can set specific channels to be blocked so that no program on that channel can be viewed, regardless of program rating.

To set blocked channels, do this:

1. Open the Settings application.
2. Select Edit, then press OK.
3. Select a channel to be blocked, then press OK
   A lock icon appears to the right of the channel name. Repeat this step until all channels you want blocked have the lock icon.
4. The image below shows three blocked channels:
5. Select Update. Your changes are saved.

Adding Subaccounts
As a primary account holder, you can add secondary accounts (subaccounts) and assign them to other household members. You configure each subaccount with its own username and password, then optionally assign other attributes, such as a theme (or skin) and a rental allowance.

To add a subaccount, do this:

1. Open the Settings application.
2. Select Users then press OK.
3. Select Add then press OK.
4. Select New Login, then press OK. The keypad displays. See: Using the Keypad on 1-2
5. Press ⊂, ▼, ▲, ▼, and OK to sequentially select letters for the new login name.
6. When you've input the new login name, select Done then press OK. The new login name is displayed:
7. Press ▼ to select New Password, and enter a new password using the number keys. Do the same with Confirm Password setting.
8. Press ▼ to select Theme, press OK, press ▼ or ▲ to display the desired skin (color appearance), then press OK.
9. Press ▼ to select Allowance, and enter the amount that this account can spend on rentals.
10. Press ▼ to select, in turn, the Caller ID, Email, and Internet settings, then press OK to enable (check) or disable (uncheck) that feature for the subaccount.
11. Press ▼ to select Enter PIN, and press the same PIN number that you used to access the Settings menu.
12. Select Continue to set up parental ratings for this user. (See Setting up Parental Controls on page 5-2.)
Modifying Main Subaccount Settings

To modify the settings of an existing subaccount, do this:

1. Open the Settings application.
2. Select Users then press OK.
3. Press ▶, then press ▲ and ▼, to select the button next to the subaccount you want to edit, then press OK:

![Settings Interface]

4. Select the Edit option:

![Parental Control]

5. Press OK. The Edit User interface appears for the user.
6. Adjust the settings in the manner described above in section Adding Subaccounts above.
7. Select Submit, then press OK. The account setting changes are saved.

Modifying Subaccount Parental Control Settings

To modify the settings of an existing subaccount, do this:

1. Open the Settings application.
2. Select Users then press OK.
3. Press , then press ▲ and ▼, to select the button next to the subaccount you want to edit, then press OK:

4. Select the Parental Control option:

5. Press OK. The Parental Control interface appears for the user.

6. Adjust the settings in the manner described above in section Setting up Parental Controls above.

7. Select Submit, then press OK. The Parental Control adjustments are saved.

Adjust Closed Captioning, Audio, and Video

To adjust closed captioning, audio, and video, do this:

1. Open the Settings application.

2. Select Hardware Settings, then press OK.

   An option screen appears that allows you to adjust device brightness, set up closed captioning, and so on.

   These options are specific to your set-top box manufacturer. The image below is the hardware settings screen from an Entone set-top box:

   An option screen appears that allows you to adjust device brightness, set up closed captioning, and so on.

   These options are specific to your set-top box manufacturer. The image below is the hardware settings screen from an Entone set-top box:
This chapter describes how to use the **Favorites** application.

The **Favorites** application allows you to create and maintain a list (or lists) of your favorite channels for quick access. When using the Guide, you can quickly view **Favorites** lists and select favorite channels for viewing.

You access **Favorites** by selecting ☛ from the set-top box Menu bar and then pressing OK.

### Creating a Favorites List

To create a **Favorites** list, do this:

1. Open the **Favorites** application.
2. Select **Create** from the list, then press OK.
3. Select **Name**, then press OK to launch the keypad. **See: Using the Keypad on 1-2**
4. Enter a name for the new list.
5. Select **Done** on the keypad, then press OK.
6. Press ► and then ▲ and ▼ to select a channel you want to add to the list, then press OK. A heard icon appears to the right of the channel.
7. Continue pressing ▲ and ▼ and OK to select any additional channels you want to add to the list. In the example below, three channels are shown as being part of the favorites list. (There can be others viewable if you scroll up and down):

![Favorites application screenshot]

8. When done, press ► to select **Update**, then press OK. The channels are added to the favorites list, and the current program resumes.
Viewing your Favorites List in the Guide

To view your Favorites lists in the Guide, do this:

1. Open the Favorites application.
2. Select Choose from the list, then press OK.
3. Press ▲ or ▼ to select the Favorites item you want to use:

4. Select OK, then press OK. The menu disappears and live video is shown.

5. Press Menu to display the menu bar, select , then press OK open the Guide. On the left, the Guide shows Favorites list names and the channels in the list. The image below shows the channels in list MY FIRST LIST:

Note: When you display the Guide, you can scroll through your Favorites lists (and other standard lists such as All, Subscribed, SD, HD, PPV, etc.) by repeatedly pressing Guide

Deleting a Favorites List

To delete a Favorites list, do this:

1. Open the Favorites application.
2. Select **Delete** from the list of options:

![Image of menu options]

3. Press **OK**.

4. Press ▲ or ▼ to select the **Favorites** item you want to delete:

![Image of favorites selection]

5. Press ◀ to select **OK**, then press **OK**. The deletion confirmation appears.

6. Select **Yes**, then press **OK**. The **Favorites** item is deleted.
Searching for Video

This chapter describes how to use the Search application to help you locate programs in the Guide, On Demand movies, and assets in the Cloud TV.

Searching for Video

To use the Search feature, do this:

1. Press Menu to display the menu bar, go to , then press OK. The Search interface appears.
2. Press OK again to launch the keypad.  See: Using the Keypad on 1-2

2. Select the previously purchased PPV program, then press OK. Options available for that program appear:
   ![Screen with options]
   - Schedule Event
   - Cancel Reminder
   - Cancel PPV Purchase
   - Expanded Info
   - Buy Next PPV
   - Cancel
3. Select Cancel PPV Purchase, then press OK. The PPV purchase is canceled.

**BASIC TROUBLESHOOTING**

Not Seeing All Your Channels? Make sure the Guide Filter is on “All” or “Subscribed”
Press Guide button repeatedly until you are on Subscribed.

Can not change channels? Press the “STB” button to put remote in STB mode.

“I Do Not Have A Picture.” (Blue or Snowy Screen) or
TV displays “No Signal” this means TV is on the wrong Input or
STB is not powered on. The TV is not seeing the STB connected.

An Easy Solution for Most Other Problems: Reboot Your STB

1st - Unplug the power cord from the back of the STB for 10 seconds.
2nd - Plug the power cord back into the STB. The STB will power on by itself. The TV should display the STB loading.

*(Your STB will take roughly 4 to 6 minutes to reboot.)*
